

Concerned About Navigating EHRs and Meaningful Use?

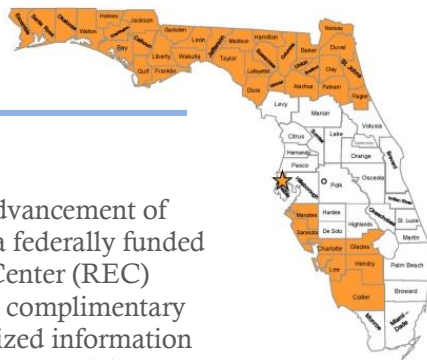

Let AHIT help you through the maze of federal regulations, system implementation, privacy and security best practices, and Electronic Health Records (EHR) adoption incentives.

Your Partner for Success

For more information, visit www.AdvanceHealthIT.org

AHIT serves 41 Florida counties

Who We Are

The Center for the Advancement of Health IT (AHIT) is a federally funded Regional Extension Center (REC) designated to provide complimentary education and subsidized information technology (IT) services to eligible primary care providers and hospitals in northern and southwestern Florida who wish to adopt Electronic Health Record (EHR) systems, or maybe already have, and achieve “Meaningful Use” of those systems. AHIT acts as your trusted IT advisor. Our team of IT professionals has over a decade of experience implementing, supporting, and managing systems within the Florida medical community.

Regional Extension Centers have been established by the U.S. Department of Health and Human Services’ Office of the National Coordinator as part of the Health Information Technology for Economic and Clinical Health (HITECH) Act.

How AHIT Can Help You

AHIT can assist you with:

- Unbiased, accurate information
- EHR system selection, implementation & project management assistance
- Group purchasing program
- Privacy & security best practices
- Workflow redesign
- EHR optimization and Meaningful Use achievement
- EHR adoption incentives

EHR Incentives

If you are an eligible provider who achieves Meaningful Use of a certified EHR system, you can receive

- Up to \$44,000 per provider in Medicare incentives, or
- Up to \$63,750 per provider in Medicaid incentives to offset the cost of implementing or upgrading a system

- Additional incentives are available for Medicare providers practicing in Health Professional Shortage Areas

In Florida, the Agency for Health Care Administration is readying itself for first round Medicaid applications this Fall.

Who Is Eligible for REC Services

Priority Primary Care Providers: MDs, DOs, NPs, CNMs, or PAs who work in Family Practice, Internal Medicine, OB/GYN, or Pediatrics, and practice in any of the following:

- Small practices (10 or fewer providers)
- Ambulatory clinics connected with a public or critical access hospital
- FQHCs, community health centers and Rural Health Clinics
- Other providers predominately serving uninsured, underinsured, and medically underserved populations
